

SAN JOAQUIN COUNTY Public Health Services

Healthy Future

Public Health Educator

San Joaquin County Public Health Services is recruiting for two dynamic and motivated Public Health Educators. The first position is in the Health Promotion and Chronic Disease Prevention Program, and will support program efforts to increase fruit and vegetable consumption, physical activity, and food security in low-income families, with the goal of preventing obesity and other diet-related chronic diseases. Education and outreach is used to assist behavior change in homes, schools, worksites, and communities to create environments that support fruit and vegetable consumption and that are conducive to an active, healthy lifestyle. The other position will be responsible for the health education component of the Child Health and Disability Prevention Program.

Public Health Services

The Public Health Services campus is located in Stockton, CA. The health department provides a culturally diverse community (685,660) with classic public health services.

The Department has a tradition of strong community involvement and leadership in health promotion.

Become a Public Health Educator

The Public Health Educator coordinates with agency staff to assess and identify community public health educational needs; plans, organizes, implements and evaluates appropriate programs and services designed to meet the educational needs of public and private organizations, schools, community groups and the general public; Researches data and prepares copy for various reports, bulletins, periodicals, pamphlets and other written informational and educational presentations; prepares news releases and special features for all news media; Informs and interprets to general public, community organizations and other agencies the various services and programs provided by the public health agency.
