

San Joaquin General Hospital is recruiting for

CLINICAL NURSE SPECIALIST - FMC

THE POSITION

The Clinical Nurse Specialist is a key member of the Family Maternity Center professional staff and functions in an advisory and teaching capacity at San Joaquin General Hospital. This position provides technical expertise and assistance in developing and maintaining standards of care within areas of clinical expertise by planning and implementing specialized clinical instruction programs for nursing staff, and by participating in the development of policies and procedures. This position works closely with physicians and interprets and relays treatment plans to nursing staff.

THE DEPARTMENT

San Joaquin General is a community hospital and designated Level III Trauma Facility located in French Camp, CA and has approximately 1,600 employees. The hospital is in need of a Clinical Nurse Specialist who is looking for exciting, fulfilling position with a comprehensive interdisciplinary team. There is one vacancy in the Family Maternity Center. The department includes Labor & Delivery, Nursery and Post-Partum units. The ideal candidate will have excellent interpersonal communication skills, ability to mentor role competent nursing practices, and administer professional presentations to staff and the community. Our hospital includes:

- 12 beautiful LDRP suites
- Perinatologist Service
- OB Anesthesia 24/7
- OB coverage for emergencies
- Midwives Service 24/7
- Outreach Education Resources

***Our community's health and well-being are our highest priority!
Come learn, share and grow with us!***

CLINICAL NURSE SPECIALIST - FMC

TYPICAL DUTIES

- Determines need for clinical education in area of specialty; provides clinical education programs through presentations, community education, and/or in-service sessions; provides orientation for new nursing personnel; organizes and directs nursing rounds and teaching of nursing staff; plans, organizes, implements, and participates in outreach educational programs for community hospitals.
- Acts as liaison between the nursing division and medical staff, outside agencies, and affiliated universities; attends meetings; participates on committees; participates in professional organizations to maintain level of expertise in clinical specialty; may speak before community groups regarding area of clinical specialty.
- Consults with patient care team members to coordinate the intra-area delivery of nursing care, including planning patient care prior to admission and after discharge or transfer to another nursing care area.
- Participates in development of policies and procedures within area of specialty; keeps records; reviews current literature, conducts research, attends seminars and maintains membership in professional organizations; uses performance improvement model to improve advanced clinical practice and care; writes reports; prepares handbooks and other informative literature.
- Coordinates and participates in the delivery of patient care in a specialized nursing unit; assesses and intervenes in complex health care problems within clinical specialty area; selects, uses and/or evaluates technology, products, and devices appropriate to specialty area; manages populations of clients with disease states and non-disease based etiologies to improve and promote health care outcomes.
- Provides clinical expertise and performs consultative functions in multiple health care settings; makes recommendations in area of clinical specialty to health care professionals, patients, and health care organizations; uses evidence-based clinical practice to develop methods to improve patient care and patient care outcomes.
- Provides clinical leadership; demonstrates and implements mastery in related clinical theories, professional development, and changes affecting the profession and the community.

About San Joaquin County

San Joaquin County is an extraordinary place to work and live. A land of beauty, recreation and natural riches— from the waters of the Delta to the vines of the wine, San Joaquin County has it all.
