

San Joaquin County is recruiting for:

INFORMATION SYSTEMS ASSISTANT DIRECTOR

THE POSITION

San Joaquin County is recruiting for an Information Systems Assistant Director to act as the Chief Information Officer for San Joaquin General Hospital. This critical leadership position is responsible for the Information Technology needs of the hospital. Specific responsibilities are to develop and implement a strategic Information Technology plan, manage the implementation of new information systems and software acquisitions, manage system administration, including local area networks and wide-area networks, manage the IT department, maintain the privacy and security of all IT information and ensure the cost-effective expenditure of resources. In addition, this position will have overall management responsibility for the implementation of a new Hospital Information System that will be implemented later this year.

THE DEPARTMENT

The Information Systems Division is responsible for the County's core Information Technology and Communications functions. During the current fiscal year, the department is focusing on several key areas which include: cost effective and timely project delivery; improvement and expansion of online and mobile computing services; enhancement of system security; modernization of law and justice technologies; and continued improvement in customer service.

The 2017-18 operating budget for the department is approximately \$32.8 million. The Information Systems Division is staffed with 125 employees which consist of professional and para-professional staff. Some of the projects the department initiated and/or completed include: replacing the clinical and administrative systems used by San Joaquin General Hospital with a series of new technologies; implementing Office 265; and developing mobile workforce infrastructure.

ABOUT SAN JOAQUIN GENERAL HOSPITAL

San Joaquin General Hospital (SJGH), originally established in 1857, is a general acute care facility that also is a Designated Public Hospital that is owned and operated by the County of San Joaquin. It provides a full range of inpatient services that includes general medical/surgical and intensive care, a comprehensive emergency department, high-risk obstetrics and neonatal intensive care, pediatrics, and a level III designated trauma center. In addition to the 196-bed hospital, the medical campus includes multiple facilities dedicated to comprehensive outpatient services including six primary care clinics including family medicine and internal medicine, OB/GYN, and pediatrics as well as a number of specialty clinics (including the full spectrum of medical and surgical sub-specialties).

San Joaquin County is an Equal Opportunity Employer

SAN JOAQUIN COUNTY

A land of beauty, recreation and natural riches—from the waters of the Delta to the vines of the wine, San Joaquin County has it all. San Joaquin County boasts seven cities and some of the finest opportunities in the state for boating, fishing, camping, history-gathering, or just plain fun in the sun. Each city, as well as the unincorporated county areas, offers a unique opportunity to enjoy natural California beauty and nature, or music, arts and culture. Whatever your interest, it can most likely be found in San Joaquin County.

ARTS, CULTURE, AND RECREATION

The arts and culture provide a much-needed respite from everyday worries and the Haggin Museum, San Joaquin County Historical Museum, and the Children's Museum of Stockton are popular spots.

The Stockton Symphony, San Joaquin County Ballet, and Stockton Civic Theater provide important experiences for children and adults. The multi-cultural community offers a diversity of views and opinions in its art and culture, providing a wealth of knowledge about past and present on canvas and stage.

Over 75 languages are spoken within the region and there is richness in the blending of cultures and ways that creates an air of celebration about individual customs, foods and cultures.

San Joaquin County government provides nine community parks for boating, camping, picnicking, swimming and organized sports. Annual family events include Stockton's Asparagus Festival, attended by thousands of fun-seekers from the county and beyond, held in downtown Stockton.

Individual cities and communities provide a host of other opportunities, from Lodi Lake Park and Nature Area to the Woodbridge Ecological Reserve. The county-owned and operated Micke Grove Park offers a zoo, rides and a historical museum to delight both children and adults. The San Joaquin Delta is one of the area's best kept secrets and offers some of the best boating in the state: more than 1,000 miles of waterways stretching from the Stockton Harbor north to Sacramento and offering access to the San Francisco Bay.

AGRICULTURE

The county is one of the most agriculturally rich regions in California and is the number one producer, statewide, of asparagus. Twenty-four thousand acres of county farmland are dedicated to production of this crop. In recent years, the leading crop in the county has been wine grapes, and wineries and vineyards have sprung up from Stockton to Lodi.

EDUCATION

From preschool to higher education, the county has it covered with an abundant array of opportunities to learn and grow. The University of the Pacific, California State University, Stanislaus - Stockton Center, Humphreys College and School of Law, National University and San Joaquin Delta Community College offer a wide variety of choices for educational opportunities. The county's 17 school districts provide families with a wide choice for children's educational development.

HOUSING

Homes and apartments are plentiful and the median home price in the county is still affordable when compared to other nearby areas.

Affordable, comfortable housing is available in most sections of the county and new homes abound in both the south and north area, with historic homes found mostly in central Stockton and downtown Lodi.

San Joaquin County is a place where families can grow, learn, and experience the nature and beauty of the California landscape while benefiting from the unique opportunities, cultural, recreational, and educational that the area provides.

Information Systems Assistant Director

TYPICAL DUTIES

- ◆ Ensures application reliability, security, performance, and data integrity and disaster recovery functions.
- ◆ Evaluates new developments in the healthcare information technology industry and communicates to customers potential benefits which may be realized.
- ◆ Implements and encourages the Strategic Direction for Healthcare Information Technology, including consultative services to improve operational effectiveness of healthcare information technology.
